Response to Amendment

1. The amendment received 12/12/08 has been entered in full.

Response to Arguments

2. Applicant's arguments, see pages 7-8, filed 12/12/08, with respect to the rejection of the claims under have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of USC 101.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1,3-9,11, and 13-20 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent¹ and recent Federal Circuit decisions² indicate that a statutory "process" under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example the method including steps of determining

kinetic energy for the pixels, assign pixel values to the pixels, etc. is of sufficient breadth that it would be reasonably interpreted as a series of steps completely performed mentally, verbally or without a machine. The Examiner recommends inserting after the preamble in the independent claims, "using a computer to carry out the steps of:" in order to overcome the rejection.

Allowable Subject Matter

5. Claims 1,3-9,11, and 13-20 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 101, set forth in this Office action.
